## All 112 Rural Taverns Have '66 County License

All 112 taverns or retail liquor stores known to be operating in unincorporated areas of Madison county now have obtained 1966 county licenses, it was announced Friday at Edwardsville.

County Liquor Commissioner Harold Landolt had set 5 p.m. Thursday as the deadline and threatened a shutdown of any places found operating without a license at that time.

Eleventh hour approvals were given Thursday for two taverns in the Quad-Cities rural area. The 1966 licenses were approved for Little Dover Inn, 2542 Highway 67, with Frances C. Rushing as proprietor, and Rocky and Sonny's tavern, 4382 Lake drive, with Florence M. Powers as proprietor.

## Complaints About Dump

## Farmer Seeks Local, State, Federal Help to Halt Smoke

Henry Mueller, who operated a 124-acre wheat and soybean farm off old Route 67a south of Madison, was hoping for a down-pour rather than showers Saturday to put out a smoldering dump adjacent to his farm. The Midway Dump is burning plastic and the heavy smoke is pouring over his farm, he complains.

Mueller has filed suit against the dump operator and was awarded a \$2000 judgment for crop damage several years ago. However, he continues to be plagued with the smoke, he said over the weekend.

A man of action, Mueller has sent off letters to the Air Pollution Control board of the state Department of Public Health, Congressman Melvin Price, the county boards of both Madison and St. Clair counties, Gov. Kerner and Nameoki township Supervisor Harry Briggs.

"I can't have my crops ruined again," Mueller told the Press-Record. "That dump has been smoldering for over a week, I figure it will take quite a while for the plastic to burn away. It seems about 200 truckloads were dumped there a couple of years ago."

Mueller's farm is in Nameoki township of Madison county, but the dump is located in St. Clair county and extends for about three-fourths of a mile along his farm.

"The fumes are obnoxious, and I'll notice the dump is behind the coke plant (blast furnace division of Granite City Steel Co.). That might be the cause of the problems you're having in Granite City," he added.

"I need all the help I can get," he said. "I need the state, federal, local, county, state and even federal officials until he gets results."

## Marville Road Contract Award Decision Due

An item of major interest to Quad-Citians that will be presented to the county board of supervisors on Wednesday will be consideration of bids for the improvement of Marville road. While the county's project does not include any work on the dangerous Marville road rail crossing — between Granite City and Mitchell — it does include the paving of the roadway with a 44-foot concrete pavement south from Route 203 (Nameoki road) to Ponton road in Granite City, and a 24-foot pavement north of the rail crossing to old Route 66-40.

The bidding is to be included in a state highway improvement program for Route 203 from Greenville.

It was learned the county Road and Bridge committee plans to recommend a contract award to the low bidder at Wednesday's county board session at Edwardsville.

The apparent low bid was by Calhoun County Construction Co. in the amount of \$886,531, which is about 5% above the engineer's estimate.

Other bids were \$600,422 by Hoffken Bros., Belleville; \$622,072 by Sangamon Construction Co., Springfield, and \$645,331 by Keeley Bros., East St. Louis.

Granite City is to share the cost of the four-lane paving and related drainage work inside the city limits for a distance of about three blocks. The city's cost has been estimated at \$55,000 of motor fuel tax funds.

## Auto Skids, Hits Pole

An auto that skidded out of control on the wet pavement of Broadway about 8:15 a.m. Saturday crashed into a utility pole at Third street. The driver, Dragun Modric, 2341 O'Hare avenue, escaped injury, Venice police said.

Modric told police a car pulled in front of his westbound auto off Third street and as he swerved and applied his brakes, his auto spun and the rear of the car crashed into the pole.

## Miss Vicki Lynn Ritchie Is Bride of James Cicigoi

In a candlelight ceremony for Mr. Cicigoi, and serving as taking place Saturday evening at St. John United Church of Christ, Miss Vicki Lynn Ritchie, a daughter of Dr. and Mrs. John C. Ritchie, 3240 Carlson avenue, became the bride of James E. Cicigoi, whose parents are Mr. and Mrs. Alfred Cicigoi, Godfrey, Ill.

The Rev. Paul Surbey officiated at 7 o'clock before the altar decorated with arrangements of white flowers. The double-ring ceremony was used.

A program of wedding music was furnished by Miss Judi Lewis, vocalist, accompanied at the organ by Mrs. Isabel Schmidt. The songs were "Because" and "I Love You Truly."

Dr. Ritchie escorted his daughter down the aisle carpeted in white and gave her in marriage. They were preceded by a maid of honor, Miss Cheryl Pindell, two bridesmaids, Miss Connie O'Guin, and Miss Joyce Cicigoi, a sister of the bridegroom, and a junior bridesmaid, Kathy Ritchie, sister of the bride.

The former Miss Ritchie was attired in a floor-length gown of white peau de soie and Alencon re-embroidered lace. The fitted bodice was designed with a scoop neckline and long tapered sleeves adorned at the hands with lace. The front of the gown was enhanced from the neckline to the hem with applied lace and the skirt with controlled fullness flowed into a pleated train which was also trimmed with motifs of the lace. A headpiece adorned with pearls and crystals secured a bouffant veil of illusion and the bride carried a colonial bouquet of white roses with a pink cymbidium orchid in the center.

The attendants wore identical gowns of pink. Empire in styling, they were floor-length with bodices of shocking pink chiffon and skirts in a paler shade of pink crepe. Fabric rose headpieces and nose veils completed the costume and they carried colonial bouquets of white and pink carnations.

For her daughter's wedding, Mrs. Ritchie chose a pale green silk shantung suit with green accessories and a white orchid wristlet. The bridegroom's mother was in a medium blue three-piece wool suit with matching accessories and a white orchid corsage.

Ray Lewis was best man

for Mr. Cicigoi, and serving as groomsmen and ushers were Gary Craus, Jerry Ritchie, Mark Laabrook, Robert Kunz and Steven Tibbs.

A reception was held at the church directly after the ceremony, and the newlyweds left later for a honeymoon at the Lake of the Ozarks. When they return they will live at 815 East Seventh street, Alton.

The bride attended Eastern Illinois University and has been employed by Southwestern Bell Telephone Co. Mr. Cicigoi attended Southern Illinois University. He is an employee of the Hampton Bank Building and Equipment Corp.

The rehearsal dinner was given by the bridegroom's parents Thursday evening at the Rose Bowl.

Since I got my Accutron, I can't stop asking people for the time so I can tell them they're wrong.

This man may sound like a pest. Accutron owners often do. It's hard to blame them. After all, the Accutron owner knows the time is not 4:52, but exactly 4:51 and 19 seconds. And he doesn't mind telling anyone. In fact, he enjoys it.

This enjoyment comes from a little tuning fork, which Bulova uses in the Accutron movement instead of a balance wheel. It splits every second into 360 parts, and the time you keep is so precise that it's guaranteed in writing. You'll be right within a minute a month.

An average of 2 seconds a day. This kind of accuracy could make a pest of the best of us. Come in and we'll make an Accutron fan out of you. Accutron by Bulova. From \$125

LET'S TALK ABOUT TABLES

There are still many people who like matching sets of tables for the living room but many professional decorators today like to make each table entirely different.

Not only different styles, but different materials and finishes. When it comes to the coffee or cocktail table, you may want to use several small tables to choose from. Wood and formica top tables are still the most popular, but the top, glass, marble, leather and lacquered color top tables are also in great demand.

And, there's never been a wider selection of shapes and sizes of tables than there is today. There are wedge, lamp, cigarette, console, boom-rang, free-form, commode, drum, tier, and even large-tan tables in great variety.

Many low lamp tables are being used with very tall lamps. Picture window tables are more popular than ever. We invite you to come in and see our complete selection of tables of all kinds, and take advantage of the ideas we can give you on decorating your living room with the right table or tables for you. So, remember, when shopping, our decorating and sales staff here at Fredman Bros. Furniture Co., Nidringhaus and Delmar Ave., in Granite City, is always ready to serve you. We are open Monday, Thursday and Friday night until 8:30 p.m., other nights until 5:30 p.m.

## 'Sweet Sixteen' 58 Years Old March 19

The Illinois State High School Basketball Tournament seems headed for another banner year in both attendance and gate receipts next month at Champaign, and the man responsible for it all was a former Carthage College coach, Lewis Omer, who died at the age of 78 on Jan. 3, 1964, in Carthage.

They journeyed down to Springfield in 1907 just prior to Christmas and submitted the plan to the athletic committee that dealt with the high schools in Illinois.

"There was the usual inertia," Omer was quoted as saying, "with the chronic objectors appearing as they always do when he brings up a new idea. Broome's enthusiasm and my plan finally got them to the point where they gave us permission to try the experiment at Oak Park."

Omer was coaching and teaching at Oak Park high school when he dreamed up the "state journey" idea. A graduate of the University of Illinois, he later taught at Thornton high school in Harvey, and then was hired as head track coach at Northwestern University (Evanston) in 1910.

Omer, whose wife Edith still lives in Carthage, started the Illinois State Cage Classic at the Oak Park YMCA in 1908. He invited 13 outstanding teams to the baptismal state meet; 12 of them accepted the invitation. Peoria, Wheaton, Rock Island, LaSalle, Hinsdale, Mount Carroll, Joliet, Geneva, Evanston, Riverdale, Oak Park and St. Omer, who lived to see 33 state tournaments, conceived the plan for a state meet with the idea of raising enough money from admissions to finance a state high school athletic association.

He also wanted to develop uniform rules of eligibility and to control prep athletics instead of letting athletics control the schools.

One of the men who pitched in with Omer to sell the idea for what is today's fabulous "Sweet Sixteen" classic in Illinois was the late H. E. Brown, formerly a principal at Rock Island high school and later an administrator at New Trier.

Just how far the state meet has blossomed in 58 years is apparent from attendance and ticket receipts listed by the IHSAA for 1965 basketball tourney play (districts, regionals, sectionals and state finals). The total attendance for 128 tournament centers was 765,544 — only 11,500 less than the record attendance of 777,045 set in 1964. Gross receipts amounted to \$748,263.

Peoria high clipped Rock Island 48-29 to capture the initial state championship. The following year, Omer asked the IHSAA to take over the tournament, which was held at the YMCA in

## 'Too Early Yet, Check, Plus' — Fedora; 'Two Pitches' — Garbe

"It's too early to really tell," said Joe Fedora, Granite City baseball coach, as he popped a high fly ball with the fungo during a pre-season workout.

"The weather hasn't been that good to us, but we'll be all right. Zero, plus," he said as an outfielder missed a fly ball but

Fedora was in the process of testing and grading potential outfield prospects for the Warriors, and in between pop flies and hard-hit grounders he gave a progress report on the 1966 Warriors.

Meanwhile, inside the gymnasium, assistant coach Gale Garbe was checking the progress of seven pitchers. "The really good high school pitcher should have two perfect pitches — the fast ball and the curve," he said, "and follow through."

"Check, plus," Fedora said, rating one outfielder on his ability to catch the ball and throw a strike to the cut-off man.

"We've only been using the iron Mike (mechanical pitcher) in batting practice a few days now and some of the boys haven't worked the kinks out yet. Plus, check," he said.

One hundred yards away a hard-batted ball before it flew swings while assistant Coach Ken Spaulding looked on. "Next week sometime we'll know more about the team, but right now it's just pitchers and catchers," he said.

While the Warriors were nearly half through their pre-season drills, Madison baseball coach Earl McClanahan was looking over his first day's squad of pitchers and catchers.

"Next week sometime we'll know more about the team, but right now it's just pitchers and catchers," he said.

Turner, area scoring king with a 24.0 average, was selected on the All-State team, while playmaker Essington made the Little All-State team.

Bloomington. The state meet site kept shifting to Peoria, Decatur and Springfield before it finally settled at the University of Illinois campus in 1919. It has remained there ever since.

Belleville's Joe Wiley joined Turner on the All-State squad, and Breese's Mike Hostmyer joined Essington on the Little All-State team. All four players were first-team Press-Record all-conference selections.

Omer was coaching and teaching at Oak Park high school when he dreamed up the "state journey" idea. A graduate of the University of Illinois, he later taught at Thornton high school in Harvey, and then was hired as head track coach at Northwestern University (Evanston) in 1910.

Six other Press-Record all-conference players received "Outstanding Commendation." They were Larry Rinke, Granite City; Terry Bubs, Bunker Hill; Mark Cattell, Cahokia; Craig Manwaring, Highland; Percy Dillon, Venice; and Jerry Semanek, Livingston. Mickey Moore of Edwardsville, a second-team Press-Record selection, also received "Outstanding Commendation."

He was promoted to athletic director three years later. After a stint in the Army, where he rose to the rank of captain, he was hired as athletic director at Carthage College at its old campus in Carthage during 1921. The Illinois campus was closed in June 1964 and all programs consolidated at Carthage's new campus in Kenosha, Wis. The old campus is now a thriving junior college.

Other officials chosen were Tom Alexander of East Peoria, Paul W. Blakeman of Pontiac, Robert D. Biondi of Benton, Wayne Bollinger of Carterville, Jean W. DesMarreux of Kankakee, Robert Freites of Centralia and Tommy Stewart of Champaign.

Omer, who was born on a farm near Clayton (Adams county), gave up all coaching duties at Carthage in 1935 after his protégé, Herbert "Hub" Wagner, was appointed athletic director. Omer stayed on as a teacher until he retired in 1941.

Wagner, now "Dean of Boys" in the Rock Island public school system, was the greatest coach Carthage ever had in basketball. His 1931 record during 1931-32 still stands as the finest cage season in Redman history. Nine of the 13 best basketball seasons in Carthage cage annals were fashioned during Wagner's coaching tour.

## Three Warriors Win AAU Wrestling Championships

Two Granite City wrestlers found themselves wrestling against each other for the 142-pound Amateur Athletic Union wrestling championship at Ritenour junior high Saturday.

Other Warriors who participated but lost were Randy Roush, Dan Patterson and Ernie Mills. Mills lost his first-round bout to Lee Grubbs, national Greco-Roman champion.

Dempsy Cross pinned Paul Hoffman in the final of the novice division for the 142-pound crown.

Pat Klein, state runner-up in the 133-pound class while at Granite City during 1957 and 1958, came out of retirement but lost in the semi-finals.

Jan Gitcho, another Warrior wrestler, won the 106-pound novice event and Mike Middleton of Granite City took the 180-pound novice crown.

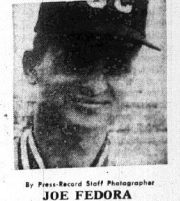

Bill Fuchs, 95-pounder, lost a semi-final match to Steve Cavanaugh in the 115-pound open division class. Cavanaugh, a former Warrior matman now wrestling at Missouri University, finished as runner-up.

Rich Bledsoe, on last year's GLC-co-sanat champions team, took the 123-pound open division title, and Jim Valicoff, another Warrior matman, lost in semi-finals of 128-pound open division competition.

The Physical Education Committee of the YMCA will hold a meeting at the "Y" tonight at 7:30 in the club room.

On the agenda are a review of all spring programs and approval of special events.

The committee coordinates all Physical Education programs for the YMCA.

## Indoor Meet First for Warrior, Tiger Squads

An experimental indoor prep track meet will match the Granite City Warriors against Edwardsville in the Tigers' new facilities tomorrow at 4 p.m. The meet, first dual competition for both teams this season, will be held on the new indoor track recently completed at Edwardsville.

"We'll be the strongest in the quarter-mile and the pole vault. Of course, then we'll have a real good mile relay team," Morrison said in previewing the season.

The Warrior squad has 13 returning lettermen, headed by pole vaulter Dwain Bridges and sprinter Leonard Revelle. Bridges qualified for the state meet last year with a vault of 13 feet.

Four Quarter-Milers. In the quarter-mile events, the Warriors have four returning lettermen in Randy Corey, Joe Pashua, Revelle and Ken Strong. Also they have Carl McDowell, a promising sophomore.

## AAUW Plans Tea To Raise Funds For Scholarship

Plans for the 1966 spring tea and book review, sponsored each year by the Granite City Branch, American Association of University Women, were discussed Thursday evening at the group's monthly business meeting, held in the educational building of First Baptist Church.

Proceeds from the affair on April 16, at St. Peter United Church of Christ, will be donated to the Granite City Scholarship Foundation. Miss Marguerite Barker announced Thursday that Mrs. Marion Stahl of Ladue, Mo., has accepted an invitation to attend the tea and review the book, "Do I Hear a Waltz?"

Several progress reports from various study groups were presented, including one by Mrs. Ruby Foster, branch president, who said the literature study committee had heard reviews of "Night of Camp David" and "Up the Down Staircase." Members were advised the next book study lesson will be held March 22, in the home of Miss Geneva Walis, 2524 Iowa street, with Mrs. Emma Schoen presenting the program.

Miss Virginia Seagr, remedial reading instructor in the local school system, described a recent trip to Los Angeles, Calif., where she spent two weeks observing an experimental program, involving an ungraded elementary school study. The upgrading system is being carried out, she explained, by the University of California at Los Angeles, and implements a new theory devised by Dr. John Goodlad, a UCLA professor.

She said the object of the program is to present a personal challenge to each child and to provide a continuous educational growth pattern. Miss Seagr said her two-week study of the experimental project proved most enlightening.

Dr. A. C. Davis, 2221 Colgate place, was admitted to Missouri Pacific Hospital, St. Louis, Saturday to undergo a checkup.

# Granite City PRESS-RECORD

the easternmost boundary lines of the city.

"This system of interceptors," Moerlein added, "is to relieve the present combined system of sanitary and storm water sewers to divert all storm water north of 21st street to the Nameoki area storm water drainage ditch which empties into Horseshoe Lake."

Moerlein added that after the completion of this project, the existing combined sewer system will become sanitary sewers north of 21st street. "This will eliminate present outlet troubles from the sanitary sewers in the Nameoki area and should provide immediate storm water relief for all sewers in the city."

The engineering plans, Moerlein told the council, propose the continuation of storm water interceptor sewer construction for all remaining areas of the city as federal funds become available. The priorities will be determined by the mayor and city council based on recommendations of the committee in accordance with the city's master plan.

Moerlein's report was completed by Edward Juneau, engineer for the firm of Sheppard, Morgan & Schwab, who is to be listed

# on the application form as the project engineer.

**Aldermen Present**

Aldermen present for the special session called by Mayor Partney on Tuesday after the council had deferred action Monday night on the federal grant application, were—

Rutledge, Bartosiek, Moerlein, Johnson, Green, Fry, Partney, Basarich, Sternberg, Dallas, Robertson and Whitmer. Absent were Nenn, Poulos, Boyd and Thompson.

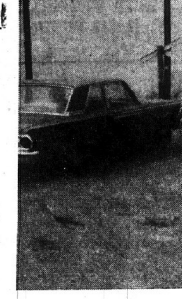

Also present were Mayor Partney, City Atty. Allen, Assistant City Atty. Konzen and the engineer, Juneau.

In opening the special meeting at 8:12 p.m., Mayor Partney stressed its sole purpose was to gain approval for the federal grant application, and that the Special Pollution committee, which had called for further information at Monday's session, had met with the engineer Wednesday night and was now in accord with the initial application.

"In years to come, Granite City is going to be forced to separate storm water from its sanitary sewers, and with these federal funds now available, we can save the taxpayers half the cost of the multi-million dollar program. If we can't agree, the sewer will be faced with bearing the full cost," the mayor stated.

Mayor Partney called upon Alderman Moerlein for presentation of the committee's report, and after a brief discussion the 12 aldermen voted in accord for the priority listing.

**Asks for Timetable**  
Alderman Green asked for a

timetable to determine when construction of sewers for North Granite would be started.

Mayor Partney replied it would be 90 days after the approval of the federal grant, since the city would have to hold a bond issue election.

"What will happen to the North Granite sewers if we don't get the federal grant?" Green then asked.

Moerlein answered, saying the city was virtually assured of getting the federal funds, and that even without federal funds, his committee believed an arrangement of financing could be worked out.

Prime critic of the program was Alderman Bartosiek, who said the city had more important projects to consider than a sewer project, especially since the millions of gallons of water from Granite City Steel Co. were not being emptied into the city sewer system any longer.

Bartosiek said he would vote for the application for federal funds, only because of assurances that it was not binding on the city and that further council votes would be required before actual construction would be started.

**Questions on Engineer**  
He queried Moerlein if the committee was satisfied with the selection of the engineer to be named on the federal fund application. Moerlein did not answer directly, but he stated that he believed the question of engineering could be settled.

## Deputy Cooper Named To Major Case Squad

Deputy Sheriff John Cooper of Granite City has been ennobled in the two-state metropolitan area major case squad. He and Granite City Patrolman Frank Harris and Detective Michael Devine completed a one-week course last week in St. Louis and were awarded diplomas.

Harris and Devine have been on the squad since it was organized over a year ago.

**Traffic Charge**  
A charge of careless driving was placed against J. J. Sansom of Springfield, Ill., who was arrested Saturday night at Marshall and St. Clair avenues.

The committee last week recommended the city's consultant engineer — when employed — should also be assigned to watch over the project. He indicated that naming Juneau to the application for federal funds was a tentative selection and that other arrangements could be made at a later date if the council so desired.

Authorization was given for the mayor, Moerlein, Konzen and Juneau to take the application to HUD's regional office in Chicago and take part in the conference required with the presentation of the application.

The application must be in Washington, D.C., by Tuesday (tomorrow), Partney pointed out.

## More About Fast Action

ures installed now, before someone else is killed," Mrs. Barnes said.

Signs carried by the women read the messages — "Caution, Death Trap," and "Caution, Death Crossing."

**Motorists Sympathetic**  
Mrs. Barnes said numerous motorists, including the father of Mrs. Baker, have stopped to give encouragement to the picketers. "We plan to picket until action is taken to eliminate the hazard," she added.

Maryville road crossing the three sets of tracks at an angle and vehicles must go up steep grades on either side.

The crossing has been the scene of a number of fatalities in the past two decades, and it is becoming more heavily used as the residential area grows. Five memorial white crosses were erected at the scene late Friday afternoon and were destroyed by vandals either Friday night or early Saturday.

The Madison county highway department plans to pave Maryville road from old U.S. Byway 66.40 south to Pontoon road in Granite City, but the construction plans do not include the crossing, which is to be improved under a state highway department program for the widening of Nameoki road (Route 203) from Granite City to Mitchell.

The Nameoki road project north of Granite City is not to be undertaken for about two years. The state plans call for revamping the crossing and installation of protective devices.

## Mrs. Beulah Boner, 50 Found Dead In Auto in Garage

Mrs. Beulah Boner, 50, a widow and a nurse aid at St. Elizabeth Hospital, was found dead in her 1963 auto in the garage at her home, 2535 Sheridan avenue, about 10 a.m. Friday. She was pronounced dead at the scene by Deputy Coroner Alvin Cease, who was summoned by police.

Mrs. Boner was discovered by her parents, Mr. and Mrs. Mitchell Elmore, who had gone to the house and were unable to find anyone inside.

Mr. Elmore went to the garage and opened the doors, but did not see anyone in the car. After going through the house again, he returned to the garage and discovered his daughter lying on the front seat floorboards.

Police were told by the family that Mrs. Boner had been having trouble with the furnace in her home and was unable to heat the house. It is believed she had gone to the car to get warm.

The ignition was turned on, and the heater was on, but the auto battery was dead. It is believed Mrs. Boner had been dead several hours when found, and an autopsy was performed. The cause of death had not been determined yet today, and an inquest is pending, to be conducted by Deputy Coroner Robert Thomas.

Investigating police officer said there was no indication of foul play. Mrs. Boner had her head on a pillow on the car floor. She was clothed and was covered with bed clothing. Her shoes were found under the pillow, and there was a tin box of hair curlers on the back seat of the car.

Inside the house, nothing had been disturbed and her purse was intact on the kitchen table, police said. Mrs. Boner had been last seen by her parents on Wednesday.

Mrs. Boner was born in Oneida, Okla., and lived here 40 years. She was a member of the Baptist church. She had been employed at the hospital about 13 months.

Her husband, Paul, died in 1964, and survivors include her parents; a son, Paul of Granite City; three sisters, Mrs. Mae Belle Jones of Alton, Mrs. Wanda Sabo of Granite City and Mrs. Lucille Weigering of Pomona, Calif.; two brothers, Mitchell Jr. and Calvin Elmore, both of Granite City, and four grandchildren.

Funeral services were held today. Further details are given in today's obituary column.

## GC Optimists Club Enrolls 7 Members

Seven new members were initiated Thursday into the Granite City Optimist Club as the result of a membership drive, currently in progress. The newcomers were welcomed and installed by Edward L. Stone, Optimist president, at the club's weekly luncheon meeting held in the YMCA.

Accepted into the local men's service group were Lt. Col. Robert P. Armstrong, deputy commander, Granite City Army Depot; Ralph E. Frohardt, John Solenberger, Wesley McIlroy, Charles Baricovic, Lester Thompson and Ronald Snelson.

The need for new detention home facilities in Madison county to provide separate housing and care for juveniles was described by James Reideberger of Venice, probation officer for the Third Judicial District of Illinois.

The guest speaker also discussed problems connected with juvenile offenders placed in the custody of the court and the lack of sufficient manpower to speed processing of many cases referred to his office.

Thirty-five persons attended the luncheon. Milton R. Allen, program chairman, announced that Mr. and Mrs. Harry R. Johnson of Madison will present a series of colored slides showing their world-wide travels at this week's meeting. The couple also plans to display a number of art objects which they have collected.

## Youth Wounds Self In Left Shoulder

Herschel Perigan, 18, of Sand Prairie lane, shot himself through the left shoulder at about 9:30 p.m. Thursday in the back yard at his home, apparently because of difficulties with a girl friend, the Madison county sheriff's office reported.

He was admitted to St. Elizabeth Hospital after an ambulance was called. A .22 caliber pistol, which was kept in the home, was found in the back yard. The bullet passed through the youth's shoulder.

The sheriff's report said the youth was engaged to be married in August, but his parents thought he was too young and the girl's parents wanted her to finish high school first. The report added that the girl recently tried to return her engagement ring.

Young Perigan and his father had been shopping for an auto for the youth and returned home about 8 p.m. The youth had gone to his room without eating, shut the door and called his girl friend before his parents found the shot, according to the report.

The youth called out to his parents and walked to the door. The parents applied alcohol pads to the wound before the ambulance arrived.

## Mrs. Charles Wood Named Wm. Lynn, Author, Cancer Crusade Chairman Dedicates Book to Alma Mater, GCHS

Announcement has just been made of the appointment of Mrs. Charles M. Wood, 35 Mikel drive, in Arlington Heights, as chairman of the American Cancer Society's "1966 Residential Crusade" in the Quad-Cities which will be held the latter part of April.

In making the appointment, Dr. David Friedman, Madison County Unit vice-president, said the crusade chairman's "long interest in the fight against cancer would add vigor and enthusiasm to the annual Crusade to help save lives from cancer and raise funds for research, education and service."

Dr. Friedman further stated, "we are pledged to step up our program to reduce deaths from cancer and to enlarge the Society's nationwide research effort."

Cancer of the uterus, colon and rectum, breast, oral cavity, lung, and skin accounts for over 60% of all cancer cases and almost 50% of all deaths from cancer in the United States. There is an area in which major strides can be made now by present methods

MRS. CHARLES M. WOOD

of detection and treatment.

Mrs. Wood said she was happy to undertake such a challenge and humanitarian assignment. "I am confident with an increased number of volunteers who want to serve in a great humanitarian effort, we will accomplish much," she said.

Anyone wanting to serve as a volunteer may call her at WE 1-2727. "I know," the chairman said, "that we can do better in 1966. We need the support of all."

Granite City high school bookshelves offer the writings of a wide variety of authors. A new two-volume edition, "Manual of Photography," may be recorded a special place of honor because it is something special in the handwork of a GCHS graduate.

William D. Lynn, one of the authors of the technical dictionary of photographic tools and techniques, has dedicated the books "to Granite City community high school by one who spent four profitable years there, January 1937-January 1941."

He has forwarded them to his father, Roy M. Lynn, 2636 State street, for presentation to the school.

**Defines Terms, Symbols**

The 1200 pages include 875 illustrations and wealth of information. Lynn is listed as contributing author and was final editor of the section on "Definitions of Terms and Symbols Used in Photography."

He also served as editor of the portion on "Analytical Photography" and coordinated preparation of "Mechanical Methods of Phototriangulation."

First two editions were published in 1944 and 1952. This third, is a completely new work. It includes chapters dealing with new subjects scarcely mentioned in the previous editions, and also entirely new treatments of the fundamental principles.

**Technological Explosion**

Published by the American Society of Photography, Falls Church, Va., with which Lynn is associated, the manual takes into account the current "era of explosion in information and technology" and sets forth two goals: (1) to keep pace with new knowledge and techniques; and (2) to constantly re-examine the foundations of the science of obtaining reliable measurements by means of photography.

The word defining the science came into general use about 1934 and means to measure graphically by means of light.

The definition currently includes two major elements being measured by photography — interpretation of photos, and recognition and identification of photographic images.

**With Group 21 Years**

Lynn knows personally or professionally most of the people who wrote the manual, and has had contact with all members of the editorial staff for the past 21 years. He joined the survey staff at Rolla, Mo., in 1945.

The manual has been described as a rarely interesting such scope and in being so up-to-date at the time of its publication.

It was reviewed and praised last week by Prof. E. H. Thompson, University College, London, at the annual photogrammetry convention, Lynn was among the interested listeners.

Lynn's glossary of terms is featured in the March 1966 issue of *Reirographics* magazine.

## Escapade Pleads Guilty Hits Local, State Areas

Billy Allen Frock, 21, of O'Fallon, who injured a Madison county deputy sheriff after his arrest for shoplifting March 4 and escaped, pleaded guilty last week to charges of escape, battery and theft before Magistrate Joseph T. Kelleher in Edwardsville.

He is on parole from Iowa, and Sheriff Barney Fraundt said the parole will be made to revoke the parole.

## Shortage of Nurses Hits Local, State Areas

According to a recent survey conducted by the Illinois Hospital Association, a critical shortage of nursing personnel exists in all areas of the state. This deficit is keenly felt at St. Elizabeth Hospital, Mrs. Marietta Daniels, nursing service director, said today.

Various training programs for young men and women interested in a nursing career are currently available. The supervisor said. One involves a four-year degree training series, jointly sponsored with Southern Illinois University. A second 12-month course for licensed practical nurses is conducted in cooperation with F. W. Olin Vocational School of Practical Nursing.

Information on either program may be obtained at St. Elizabeth Hospital's department of education, Mrs. Daniels explained. She added that a new course for practical nursing trainees will shortly commence, with entrance data available at the local hospital.

**Richard H. Slay Completes Refresher Training Cycle**

Marine Private Richard H. Slay, son of Mr. and Mrs. John Slay of 2009 Manley avenue, has completed a 12-day training and processing cycle with Staging Battalion at the Marine Corps Base, Camp Pendleton, Calif.

This refresher training stresses the principles of small unit tactics, with particular emphasis on the fundamentals of scouting and patrolling, and land navigation.

## Edw. Ziegler, 70, Found Dead at Home in Venice

Edward George Ziegler, 70, of 514 Third street, Venice, was found dead, lying face down on the floor of his living room at 6:30 p.m. Friday. His body was discovered by his son, Edward G. Ziegler Jr., and a daughter, Mrs. David (Dorothy) Martin, both residents of Venice.

An inquiry conducted Saturday by Deputy Coroner Francis Lahey attributed his death to a coronary ailment. He had been in ill-health.

Mr. Ziegler, a life-long Venice resident, lived alone. His son and daughter went to the house after a granddaughter reported that the doors were locked and that she couldn't see her grandfather through the windows or get him to answer the door. The girl usually made a daily call on Mr. Ziegler while walking home from school.

According to Lahey, the inquiry disclosed Mr. Ziegler had expired Friday afternoon and he had apparently collapsed while seated on a living room.

Before retiring 17 years ago, Mr. Ziegler had been employed as a crane operator at General Steel Industries for 31 years. He was a member of the Venice-Madison American Legion Post 307.

Also surviving is his son, Paul Ziegler, and another daughter, Mrs. Charles (Wanda) Schweitzer, both of Granite City; a sister, Mrs. Viola Wallace, Lansing, Mich.; three brothers, Wesley, Charles and George Ziegler, all of Venice; 11 grandchildren and one great-grandchild.

Funeral services were held at one o'clock today. Arrangements are given elsewhere in this issue.

## One-Way Street Hearing Date Still Pending

A hearing date is pending in circuit court of an injunction suit seeking to restrain Mayor Donald Partney and the city administration from placing one-way street changes into effect.

The suit was filed last week by Third Ward aldermen Clyde W. Boyd and Roy G. Poulos, their wives, and a list of residents of the ward.

The complaint alleges that a one-way street ordinance received only eight votes, including one by the mayor, and required a majority vote of the city's 16 aldermen for passage. It also claims that the measure was considered and voted upon only once. However, the ordinance came up for a third reading at a recent meeting.

Placing the ordinance into effect would cause an unlawful diversion of tax money and would violate the rights of the plaintiffs, the complaint states.

## AGAIN SEEKING LOWER BUS FARE FOR ELDERLY

To the Editor:

Since the spring of 1965, the Older Adult Special Issues Council has been campaigning for a lower bus fare only during off-peak hours.

We hope to be granted half fare during these hours, to be worked out between our council and Bi-State. In 1965 we were turned down.

This effort, like our present one, came from 110 senior clubs banded together to improve our transportation problem. We represent 10% of the 200,000 retirees living in the Bi-State Transit area. We proposed reduction for those 65 or older.

This segment has a greater need for transportation than any other group. Retired citizens have contributed more during their active lives than most younger groups of similar size.

Only a minority of retirees travel about now when they want to or ought to for health and pleasure. The larger portion is made to feel unwanted and unused.

Men and women have lost their birthright of dignity and respect with other segments of society. Bi-State has overextended its ability to purchase properties at overvalued prices. Money lent to us now call the tune. They paid an outrageous price for Consolidated Service Car Co. and had a loss of \$1000 per day operating buses in a territory in which no one would use their service.

They bought far too many new buses. We had two fare increases and another seems assured. We are confident granting our demands will not bring about a real money loss; we plead for a one-year trial.

Three or four senior citizens' clubs in Granite City affiliated with the OASIS are helping secure signatures to petitions.

## OIL, DEFENSE, INCOME TAX ISSUES EXPLAINED

To the Editor:

In this letter I want to mention some items from the past and some proposals for the future.

Item one is to update a story of how defeat was turned into victory. During the fight over the Tidewater Oil Bill in 1964, a small group of us forced the proponents to accept a vital amendment.

We saved the oil and gas beyond the three-mile limit, or three-league limit in some states, for the federal government. State control was granted only

from the high tide mark to the three-mile or three-league limit. It now turns out that most of the gas and oil is beyond this limit.

The amendment has saved huge amounts. As of Nov. 30, 1965, \$897 million in rents and royalties had been received by the Treasury. Another \$890 million is in an escrow account awaiting court decisions.

I am confident that before long the U. S. Treasury will be \$2 billion richer from the amendments which we sponsored in 1964. At that time it was said we were beaten. It turns out that the people of the United States won a victory.

Another victory has come in the cut in defense waste. For years I fought to get the Defense Department to consolidate surplus activities, cut down on surpluses, cut back on negotiated bidding, and increase competitive bidding.

In letters and meetings I urged Secretary McNamara to act. He has done just that. Big savings have resulted. Testifying before the Joint Economic Committee, Secretary McNamara was kind enough to say:

"The Defense Department cost reduction program which saved \$4.8 billion in fiscal year 1965 overvalued prices. Money lent to us now call the tune. They paid an outrageous price for Consolidated Service Car Co. and had a loss of \$1000 per day operating buses in a territory in which no one would use their service."

They bought far too many new buses. We had two fare increases and another seems assured. We are confident granting our demands will not bring about a real money loss; we plead for a one-year trial.

## EDUCATION-LOCAL, STATE, FEDERAL

(Arlington Heights, Ill., Herald)

Both critics and supporters of federal aid to education sometimes tend to oversimplify their opposition or support.

With school board elections coming in April, we can expect to hear the issue discussed frequently. Let us hope the discussion is pitched on a realistic plane which recognizes the complexity of the subject.

Some forms of federal school aid are clearly justified. An example is aid to school districts in "federally impacted" areas. Such an area might be one containing a military installation, with many children of military personnel attending schools. We have never heard any disagreement with this form of subsidy.

But as new programs of federal aid have emerged, new questions have arisen. Did postwar problems in science and diplomacy justify federal aid to schools in the fields of science and languages, or could local school boards have been relied on to close any gaps?

Are big city school boards able to cope with the educational problems of deprived minorities with their own resources?

If antiquated state laws and unresponsive legislatures deny the schools adequate financing, can the home owners make up the difference through increased property taxes?

Can areas of rapid population growth maintain quality education?

With all these potential causes of inequity (and there are many more of unknown origin), it is surprising to learn that some 1000 new cases occur in the United States every week.

Regardless of the cause, epilepsy injures or impairs a group of brain cells, causing them to release an abnormal amount of energy. The result? A seizure that may range in intensity from a few seconds' loss of consciousness to the convulsions of a grand mal.

Unless epilepsy is accompanied by severe brain damage, tumor or infection, these seizures—be they slight or severe—very RARELY affect one's intelligence.

Today, over 80% of all epileptics of the country hold jobs and lead normal lives—thanks to the work of various research centers which have developed medications and surgical techniques resulting in the control and, hopefully, in the cure of this misunderstood condition.

First of all, epilepsy is not a disease. It is a symptom that something is wrong with the brain, just as fever is a symptom of an infection in the body.

And heredity plays a very small role in epilepsy. Actually, there are many causes which can make anyone susceptible, regardless of your family tree.

**Varied Causes**  
For instance, epilepsy can result from:  
1. A blow on the head.  
2. A brain tumor.  
3. Arteriosclerosis.  
4. Metabolic disorders.  
5. Chemical poisonings.  
6. Brain damage caused by common contagious childhood diseases such as measles and mumps.  
7. Complications and injuries which occur during birth.  
8. Adverse prenatal conditions that result in brain damage.  
A mild form of epilepsy—petit

mal—may carry a hereditary factor. Fortunately, for some, this type may "burn out." In other words, it may not grow it. But for others, it may convert to grand mal—the most severe form of epilepsy.

With all these potential causes of epilepsy (and there are many more of unknown origin), it is surprising to learn that some 1000 new cases occur in the United States every week.

Regardless of the cause, epilepsy injures or impairs a group of brain cells, causing them to release an abnormal amount of energy. The result? A seizure that may range in intensity from a few seconds' loss of consciousness to the convulsions of a grand mal.

were part of the old original Brooks subdivision. Private building also was begun along Route 3. One of the subdivisions located along Route 3 was Guth Place, developed by Charles Guth, and is still pending.

**Farm Jobs Subdivision**  
Other sections of Mitchell joining the subdivision were the Raymond and Goetzsch farms which was turned into the Ray-Jean Subdivision. The name consisted of the first names of Ray Goetzsch and his daughter, Miss Jean Goetzsch.

Building continues at a rapid pace today. Joseph Troeckler, supervisor of Chouteau township and one of Mitchell's civic leaders, explains it in this way: "There is only one real reason for all the building of homes in Mitchell, and that is the growth of the industrial areas around us. . . . all the workers need a place to live and everyone there seems to want suburban living. The Mitchell area and the territory around it is the only direction we have to grow."

Higher premiums will also have to be paid by those who enroll late.

**Conduct Charge Filed**  
Charles King, 50, no home, was arrested at 9:20 p.m. Friday on a charge of disorderly conduct at 1806 State street.

The next series will detail Mitchell's development of utility and public services, even though it is not an incorporated municipality.

## MORE ABOUT Tax Rates

of the Hodge-Butler scaling formula, affecting the general fund in Madison and the general fund and working cash fund in Venice. Madison's general fund rate for the 1965 tax year on 14.68 cents for the 1965 year on taxes payable this year is \$1.00, or 1.00 percent, practically the entire reduction of the corporate rate, which totaled 97.6 cents last year, compared to 1.087 last year.

City Comptroller E. J. Miller announced Friday that the general fund rate cut will mean a reduction in city income this year of \$34,852, representing about 49% of the money collected for the general fund. Miller said that last year's rate of 26.64 cents per \$100 valuation brought the city \$54,978 last year. For the 1965 tax year the reduced rate of 14.68 cents applied against the new 1965 assessed valuation will bring the city \$30,298.

Madison however, has a substantial reserve and is not expected to encounter any financial emergency. The city is being prepared for operating the Chain of Rocks Bridge, which it owns, and for the \$10 million to be received from the federal government for that now approximately \$4 million dollars.

**Venice City Rate Cut**  
Venice's corporate rate for all purposes was cut under the Hodge-Butler limitations from 7.14 cents per \$100 valuation for the 1964 tax year to 6.52 cents applicable to this year's collection for the 1965 tax year. The rate cut was 1.42 cents in the total corporate rate, which included cuts of 6.3 cents in the general fund, 1.42 cents in the working cash fund. Other rate increases partially offset this reduction.

## Bi-State, Drivers Discuss Contract

The contract dispute between Bi-State Transit System and the drivers of Amalgamated Transit Union, Local 788, remained in the negotiation stage today as the union pressed toward a new agreement.

Company officials said no new agreement was reached today. The union rejected two contract proposals in membership balloting. Approximately 1850 bus drivers and maintenance men are involved. The latest contract offer rejected by the union proposed a 35-cent per hour increase in five steps over three years and fringe benefits that would have cost the transit company \$450,000 and \$500,000 per year.

The rate also increased from 14.3 cents to 14.6 cents, while the rate for the 1965 tax year dropped slightly from 14.3 cents to 13.6 cents, and the township road and bridge rate dropped slightly from 1.31 cents to 1.27 cents. The high-rate county rate also is paid in 1965. This is the level rate of 42.3 cents.

Due to the increased rate, taxpayers of Venice will pay more than they were billed a year ago. The rate was 1.087 last year.

Taxpayers in the city of Madison will pay their 1965 tax bills this year under an overall rate of \$4.13, an increase of 10.3 cents over the 1964 rate of \$4.06, although the cut in the city corporate rate due to the general fund rate cut of 1.42 cents to 1.11 cents.
